FUEL FILLS AND TRANSITION RECORD

Farm / business: _____ Truck plate / state: _____ Unit / VIN: _____

Last date dyed diesel added: _____ Odometer on December 31, 2026: _____

Record every fill, including farm bulk-tank transfers. Keep ALL fuel purchase receipts after dyed-fuel use ends.

Fill date	Odometer	Fuel type (dyed / clear)	Gallons ADDED	Supplier / bulk tank	Receipt / transfer ID	Dyed gallons USED (period)	Period covered	Usage method/ supporting record	Driver initials

Usage may be documented by period rather than by day. Do not enter gallons added as gallons used without supporting reconciliation.

Keep opening / closing fuel amounts and dyed / clear fuel allocations when needed. Attach calculations or meter / engine records.

Copy this page as needed, including for clear-diesel fills after December 31. Retain records for FOUR YEARS.

This form provides suggested record keeping tools only. Refer to current Illinois Department of Revenue (IDOR) guidance for required documentation. Completing this form alone does not guarantee compliance with those requirements.

DYED DIESEL RECORDKEEPING CHECKLIST

Truck plate / state: _____ Farm / business: _____

Log dates: October 6-December 31, 2026.

REQUIRED UNDER IDOR BULLETIN FY 2027-07

Keep the truck license plate number, gallons used, fill dates, and the last date dyed diesel was added.

Keep proof of agricultural transportation: origin records, invoices, bills of lading, trip sheets, contracts or grain tickets, as applicable.

Record the odometer reading on December 31, 2026, even if the truck does not operate that day.

Keep receipts for ALL fuel purchased after dyed-diesel use ends. Retain fuel records for FOUR YEARS.

USING THE LOG

Use one log set per truck. These are supporting records; retain the underlying receipts and agricultural-use documents.

For on-farm storage without scale tickets, IDOR advised recording date, commodity, source field, storage location, trips and mileage.

Use an extra row or copy for each different origin / destination. Reference supporting grain tickets and receipts.

Enter gallons consumed using a documented method. Daily consumption is optional if documented for a defined period on the fuel sheet.

For bulk-tank fills, record truck-level transfer dates and gallons; retain supplier invoices and transfer records.

Record clear and dyed fills separately. Keep usage calculations, including tank balances and allocations when needed.

TRANSITION

Last dyed fill date: _____ December 31 odometer: _____

Date switched to clear diesel: _____ Driver / recordkeeper: _____

Residual dye can remain for months. Normal Illinois enforcement resumes January 1, 2027.

Illinois relief applies to farming and agricultural transportation in Illinois. This form does not establish eligibility in other states.

This form provides suggested recordkeeping tools only. Refer to current Illinois Department of Revenue (IDOR) guidance for required documentation. Completing this form alone does not guarantee compliance with those requirements.
